

MR. NUTTAPAT TANATUMMATHAT AGE:26

FULL-STACK DEVELOPER

PATHUMTHANI, THAILAND | NUTTAPAT.WORK@GMAIL.COM | PHONE: 089-772-4270

PROFESSIONAL SUMMARY

Enterprise Full-Stack Developer with 3+ years of hands-on experience designing and delivering mission-critical systems across industrial, laboratory, and gaming infrastructure domains. Proven expertise integrating IoT hardware (RFID, LPR, IP Cameras) with enterprise-grade web solutions. Consistently ensures 100% data integrity in high-stakes production environments while optimizing backend performance and automating complex workflows.

TECHNICAL SKILLS

- Frontend: React, Vue.js, HTML, CSS, Tailwind, Angular, Laravel
- Backend: Node.js, .NET Core, RESTful API, JavaScript, TypeScript, C#, Java, Python, C++, VB, PHP, Golang
- Databases: SQL Server, Oracle Database, MySQL, Firebase, SQLite
- Tools: Git, GitHub, Sourcetree, Ai, Docker, Postman, RDLC Reports, Crystal Reports, Power Bi

WORK EXPERIENCE

Restaurant Operations Assistant

Hui's braised duck noodle (Dec 2025 - Present)

- Managed table turnover and food service efficiently in a high-volume, fast-paced environment to minimize customer wait times.
- Coordinated closely with the kitchen staff to ensure seamless communication and timely delivery of orders

Full-Stack Developer

THEO Engineering Co., Ltd. (Aug 2024 - Nov 2025)

- Architected industrial weighbridge systems with real-time transaction processing and 100% data integrity.
- Developed automated vehicle authentication using LPR, RFID, and IoT integration in production environments.
- Optimized backend APIs and SQL queries, significantly enhancing system response time and reliability.
- Implemented security best practices for hardware-software integration and system stability.

Technical System Administrator

Independent Contract - Game Infrastructure (Aug 2023 - Jul 2024)

- Administered SQL databases and managed game assets exceeding 30GB, ensuring data integrity enforcement and user activity tracking at scale.
- Engineered custom Lua scripts and event-driven logic to optimize game system mechanics, improving overall platform performance.
- Collaborated closely with senior administration to deliver Tier 1 & 2 technical support, resolving complex user-facing issues.

Lab System Developer

SGS THAILAND LIMITED (Aug 2022 - Jul 2023)

- Developed S-LORD (Enterprise LMS), automating scientific calculations to eliminate manual errors.
- Created data visualization and reporting modules for analytical validation and operational efficiency.
- Translated complex laboratory workflows into scalable software architecture through cross-functional collaboration.

Full-Stack Developer Internship

GeniusSoft Co., Ltd. (Nov 2021 - Mar 2022)

- Developed full-stack corporate and E-commerce websites using WordPress, WooCommerce, and modern web tools following professional UX/UI standards.
- Customized E-commerce workflows, including product catalogs, shopping cart logic, and secure user authentication through WooCommerce ecosystem integration.

EDUCATION

- Kasetsart University | Bachelor of Science in Information Technology (2018 - 2022)

LANGUAGES

- THAI: Native
- ENGLISH: Basic Working Knowledge (Proficient in reading technical documentation)
